Playtime	25 hours
Price	To be announced

## DESCRIPTION

### Copy and paste the world!

You are Ruffy and you got the magic SWAP! With the SWAP you can copy and paste textures to change the game world, solve puzzles, beat enemies and make your way.

Scan lava and throw it onto a river to transform it into a hot stream of lava that burns away wooden obstacles. Or simply copy a climbing vine, throw it onto a waterfall and climb it up. With the SWAP you are unstoppable. The SWAP feels magic each time and makes your imagination become reality!

# FEATURES

**Unique gameplay:** Copy and paste textures to radically transform the game world. Scan textures from the environment and throw it back into the world. The whole game world is your inventory, and your canvas.

**Unique look:** All characters, textures, Ui etc. are drawn by hand. The main character Ruffy alone has over 600 drawings. This game is packed with thousands of handdrawn assets that took over seven years of work. Ruffy and the Riverside feels like a living cartoon.

**Epic Story and scenic cutscenes:** The game has a deep and twistful story with over 60.000 words of dialogue - thats half of Tolkiens „The Hobbit“. Scenic cutscenes let you dive even deeper into the handdrawn world.

**Customizing:** With the ingame drawing tool, you can draw your own textures and use them ingame. That way the world looks even more like you imagine it.

**Playtime:** 20 hours main story, 5 hours of sidequests, unlimited time to customize the game world with self drawn textures.
